## WP Amelia For One Employe – Different Prices for one Service

But the price is different depending of the Day and the time Slot

For example : 80 € and 90 €

The screenshot displays the WP Amelia interface for configuring services. It is divided into two main sections: **Mercredi** (Wednesday) and **Jeudi** (Thursday).

**Mercredi Configuration:**

- Horaires de travail:** 15:30 and 20:10.
- Services:** A dropdown menu is set to "KARAOKE - Salle 1 NEO...".
- Buttons:** "Annuler" and "Enregistrer".
- Summary:** 15:30 - 20:10, KARAOKE - Salle 1 NEO JUNGLE.

**Jeudi Configuration:**

- Horaires de travail:** 17:50 and 20:10.
- Services:** A dropdown menu is set to "KARAOKE - Salle 1 NEO...".
- Buttons:** "Annuler" and "Enregistrer".
- Summary:** 17:50 - 20:10, KARAOKE - Salle 1 NEO JUNGLE.

Two blue arrows originate from the text "For example : 80 € and 90 €". One arrow points to the "Services" dropdown menu in the Wednesday configuration, and the other points to the "Services" dropdown menu in the Thursday configuration, indicating that the price for the same service varies by day and time slot.

How Can I configure that ?

Thank you for your Help.
